SELECTED EDUCATION SESSIONS - 2011 (times, room assignments and sessions are subject to change)

1:45 pm - 2:35 pm Friday, February 25

- **How Did I Get In My Seat? Historical Perspective of Women in Military Aviation** / Moderator: Lt Col (ret) **Peggy Carnahan, USAF**
Panelists: CAPT (ret) Rosemary Mariner, USN, Col (ret) Kelly Hamilton, USAF, Commander Shaun C McAndrew / Location: **Tahoe**
(By addressing the last four decades, presenters will lead the audience through the efforts and events that allow today's military women the ability to serve in the full spectrum of aviation missions)
- **Flying World's Fastest Airplane - SR-71 Blackbird** / Presenter: **Brian Shul** / Location: **Carson 3** (A very inspirational yet comical story of his experiences flying the Blackbird)

2:50 pm - 3:40 pm Friday, February 25

- **Aviation Lessons Learned From Flying Around the World** / Presenters: **John & Martha King** / Location: **Carson 3** (They were told the world was round, but the Kings discovered it personally when they flew around the world through Russia. They faced a planning and flying challenge where altitudes are in meters, approach altitudes are above field elevation, barometric pressures are in hectopascals, airspeeds are in kilometers per hour, and wind speeds are in meters per second. They will share what they learned about flying in really strange places, and the fascinating ways aviation is the same, yet different.)
- **First Ladies of Aviation Around the World** / Presenter: **Sue Hughes** / Location: **N 1** (This session will describe the accomplishments of the "Amelia Earhart of..." difference countries around the world such as Australia, Great Britain, Romania, Canada, India, and Germany.)
- **Mountain & Canyon Flying Tips** / Presenter: **Amy Hoover** / Location: **N 3** (Aircraft operations in mountainous and canyon terrain, especially at high altitudes, present unique problems with regards to pilot and aircraft performance. However, with an understanding of a few basic "rules", mountain and canyon flying can be exciting, challenging, fun and above all, safe.)

4:00 pm - 4:50 pm Friday, February 25

- **WASP Gold** / Presenter: **Sarah Byrn Rickman, WASP** / Location: **Tahoe** (Relive the WASP's GOLDEN moment in time - the presentation of the Congressional Gold Medal on March 10, 2010, in Washington D.C.)

1:45 pm - 2:35 pm Saturday, February 26

- **Airline Pilot Panel** / Moderator: **Becky Howell** / Panelists: **Laura Noel, Mary Poplawski, Patti Hoffman, Kathi Durst** / Location: **Tahoe**
(This session will explore the training, flight experiences and job related challenges of airline pilots.)
- **Women in Aviation Thru Art** / Presenters: **Sharon Rajnus, Ann Cooper** / Location: **Carson 1** (Artwork can illustrate moments in Aviation when no camera was present to document the event. In recreating the moments through art, the viewer can find meaning, detail, and reason for interpreting the event in a meaningful way for oneself.)
- **The Women of the 1929 Derby and the Collaborative Spirit: A Model for Women Today** / Presenter: **Heather Taylor** / Location: **N 6**
(With footage of the first women's national air derby, I will present a glimpse into the distinct personalities of a few of the women in the 1929 air race and their collaborative efforts towards reaching a common goal. The pilots include Amelia Earhart, Louise Thaden, Pancho Barnes, Bobbi Trout and Phoebe Omlie.)
- **From Cessna to 787 - Through the Eyes of A Flight Instructor** / Presenter: **Lisa Clark** / Location: **N 8** (There is so much excitement and pressure when a new airplane gets delivered to a customer. Language, ATC differences, learning styles, CRM issues, "exotic food", we see it all).

2:50 pm - 3:40 pm Saturday, February 26

- **The Kings on Risk Management** / Presenters: **John & Martha King** / Location: **Carson 1** (After an aircraft accident and discovering their own sense of vulnerability, John and Martha say they have become "born again pilots". The Kings use humor and stories from real-world cross-country experience to vividly illustrate principles of risk management and pass along practical and insightful tools you will use forever)

4:00 pm - 4:50 pm Saturday, February 26

- **Who Are The Whirly-Girls?** / Presenters: **Patricia Fields Neubert, Leslie Lindsey** / Location: **N 2** (This presentation will focus on the unique history of the Whirly-Girls, including the founding members and their contributions to flight, as well as current opportunities in the organization, available scholarships, and the role of helicopters in contemporary aviation.)
- **Air-To-Air Photography** / Presenter: **Jessica Ambats** / Location: **N 6** (This session will cover the entire process of putting together an air-to-air photo shoot, including: safety aspects, location, setting, pilot briefing, subject aircraft, Photoshop aircraft, and much more.)
- **Veterans At Last: The Women Airforce Service Pilots and Their Fight for Veteran Status** / Presenter: **Kate Landdeck** / Location: **N 8**
(In this presentation I will discuss the WASPs motivations for gaining Veterans status as well as the actions they took and the opposition they faced. The work that they did during this long battle further proves the grit and strength of these incredible women.)
